ALLEGATO 9 – PIRELLI POWER STAGE MISANO

PIRELLI POWER STAGE

The special stage “PIRELLI POWER STAGE” is an integral part of the rally route of the 21st Rallylegend and will be run on the Misano World Circuit Marco Simoncelli.

- **Reconnaissance**

Wednesday 11 October 2023 from 8.30pm to 10.00pm

During the reconnaissance the barriers of chicanes and slowdowns will be replaced by cones/pins.

Only the 2 members of the crew (1st and 2nd verified drivers) are allowed to the reconnaissance of the route, with a road car and mandatory seat belts fastened.

At the start of the special stage the drivers must hand over the reconnaissance form to the marshals of the control post. Only two complete passes on the special stage can be made, the cars must leave the route passing the special stage finish before completing the third lap.

Reconnaissance must be carried out at moderate, CONSTANT speed WITHOUT STOPS, without slowing down and/or sudden changes in direction or trajectory

- **Rally**

Competitors will reach the time control following the road book.

Once the start has been taken, the cars must run two complete laps of the circuit track. During the third lap the cars must enter in the pit lane where the finish of the special stage is located.

After the stop control and the time control, the cars will be parked in an area open to the public before the next time control. The crews will be able to go to the terrace of the circuit building for the dinner planned by the organization.

- **Meaning of the flags**

During the “Pirelli Power Stage” special stage will be shown the following flags with their meaning:

- **yellow flag (waved)**: general danger signal (reduce speed - no overtaking - pay attention)
- **double yellow flag (waved)**: important danger signal – (moderate speed – no overtaking – be ready to stop)
- **red flag (fixed)**: immediate stop of the race (the stage is totally obstructed and/or it is deemed essential by the race control to stop the special stage).
- **blue flag (waved)**: a faster car arrives – allow the road and overtaking as soon as possible.
- **yellow flag with red stripes (fixed)**: reduced grip of the SS track in that section
- **green flag (waved)**: restoration of safety conditions, you can resume the speed).
- **white flag (fixed)**: presence on the track of a car driving slowly

The flags may be replaced by high visibility light panels

In case the Red Flag is shown, Competitors must immediately stop the rally. The Clerk of the Course, in consideration of the time necessary for the accepted and punctual running of the event, may possibly authorize competitors stopped in the special stage by the red flag to repeat the special stage.

However, if circumstances do not allow the special test to be repeated, the Race Direction will allocate the SS time.

In any case, crews partially or totally responsible for displaying the RED flag cannot benefit from the provisions of the previous paragraph and will be classified with the worst time obtained in their class (or the immediately higher one) + 3' minute.

- **Control signs**

At the Time Control before the Special Stage, at the Start, at the Finish, at the STOP Control and at the end of the control area, will be positioned the rally Special Stage panels, in compliance with F.I.A. regulations.
